MB.Ch.B, M.Med. Obs. /  
Gynae. MPH, FCOG(ESCA)  
University of Nairobi /  
Kenyatta National Hospital /  
Safaricom,  
Kenya

## ABOUT THE WORKSHOP

The inaugural edition of the **African Workshop on HIV & Women** will take place on 22 - 23 February 2024 in Nairobi, Kenya (livestream option available).

This exciting new initiative is a regional workshop paired to the annual "International Workshop on HIV & Women". It is an outstanding opportunity for regional, and also international healthcare providers, community representatives, researchers, programmers, government and industry representatives to discuss and further increase their knowledge on the topics related to HIV and women living in Africa.

The primary purpose of this workshop is to support changes that will provide a better quality of life for women living with HIV and reduce HIV transmissions in the region. The format of the workshop enables attendees to learn from renowned HIV experts, discuss challenges, gaps, and explore opportunities for further learning and research.

The workshop also provides a forum for early-career investigators to present their research and to personally meet with experts they view as mentors and inspiration for their work.

We hope this workshop will catalyze forming a community, where attendees continue to participate yearly and form valuable relationships and partnerships that lead to collaborative projects and positive changes.

**Register Today:**

# CALL FOR ABSTRACTS

Abstract Submission for the **African Workshop on HIV & Women 2024** is now open!

Do not miss the opportunity to share your work and be part of this inaugural workshop.

The highest scoring abstract author at the regional workshop will win the opportunity for support to attend and present their abstract at the International Workshop on HIV & Women in the United States!

All abstracts submitted must be focused on / specific to the African region.

You can submit your work in one of the following categories:

- Updates on Epidemiology Related to Women Living with HIV in Africa
- HIV Prevention
- Diagnosis, Treatment, and Models of HIV Care
- Management of NCDs and Aging Related Conditions in Women Living with HIV
- Pregnancy, Breastfeeding, and Contraception
- Menopause and HIV
- Adolescent Women Living with HIV in Africa
- The Role of Communities in Empowering Women Living with HIV
- Other Topics Related to Women Living with HIV in Africa

**Abstract Submission Deadline:**  
17 November, 23:59 EAT

The registration fee will be waived for abstract presenters who qualify as Early-Career Investigators and/or Academia from Resource-Limited Settings (RLS).

Submit your abstract:

**To be eligible as an Early-Career Investigator, you should:**

- either be a current Master/PhD student; or
- have obtained an MD/PharmD/PhD degree in the last five years.

The Early-Career Investigator form can be found on our website and needs to be completed by a supervisor and sent to the workshop secretariat.

**We support and strongly encourage the use of person-first language in all abstract submissions.**

Guidelines are available if needed.
